## OBJECTIVES OF ORGANIZATION

- To establish, maintain and operate an association of members from the profession of HVACR Engineering.
- To promote the advancement of HVACR engineering sciences and technology.
- To provide a central platform for members to communicate, exchange views and expert ideas for development of products and services of HVACR industry.
- To develop professional skill by disseminating current information on global changes and developments in HVACR technology.
- To maintain high professional standards, establish and maintain code of conduct.
- To conduct workshops, conferences, seminars and exhibitions for advancement of HVACR engineering sciences and technology.
- To provide assistances to different groups of HVACR industry, to form their individual associations and to provide guidance for keeping these associations active.
- To nominate delegates for participation in national and international seminars / exhibitions / forums.

## ANNUAL EXPO & CONFERENCE

- It's the most important function annually conducted by rotation at Islamabad, Lahore & Karachi and is the biggest one in the country. So far Society has successfully conducted 24 Technical Industrial Exhibition & Conferences and 25<sup>th</sup> Expo & Conference is going to be arranged **from 5<sup>th</sup> to 7<sup>th</sup> April 2018 at Islamabad**, the Capital City of Pakistan. Concurrently annual technical conference is also arranged and renowned experts and research scholars present their papers followed by open house discussions.
- Technical Seminars:** The Society conducts Technical Workshops & Technical Seminars and this way, Society members and others associated with HVACR profession are made enlightened and kept informed of the latest developments and innovative technologies.

## PUBLICATIONS

- The Society publishes a very comprehensive Technical Journal under the title "Pakistan HVACR Journal" which is widely circulated. It contains various sections, relevant news & informations, national and international, technical papers and many more of interest for the readers.

### SOCIETY CHAPTERS

- The Society has three branches Islamabad, Lahore & Karachi (better known as Chapters) having Central Office known as Head Quarter Office at Islamabad, the capital city of Pakistan. There are different management forums and affairs are run by elected bodies both at Chapters and Head Quarter level. The highest decision making body is Executive Council having 18 elected members headed by the President.

### INTERNATIONAL CONTACTS

- It is an affiliate with ASHRAE. Right from the inception, Society is making all out efforts for Knowledge Dissemination and Experience Sharing through different means.

### MOU'S & Delegation Visit Abroad:

Pakistan HVACR Society intends to increase interaction with similar Societies in other countries to promote mutual business possibilities and for better knowledge and experience sharing. The Society also send its delegations abroad and recently a delegation comprising of 16 members visited Turkey for attending exhibitions & for meetings with related organizations and individuals to HVACR.
