

**Name of Society**

- TVVL, Dutch Society for Building Services
- TVVL was founded in 1959 and is an international affiliate of ASHRAE since 1963
- TVVL is a separate organization, legally 'vereniging' (=End.: society) by Dutch law and financially independent.

**Mailing address**

- Visiting Address: De Mulderij 12, NL-3831 NV Leusden, Netherlands
- POB 311, NL-3830 AJ Leusden, Netherlands

**Phone and Fax**

- Phone: +31 33 4345750
- Fax: +31 33 4321581

**Email and Internet**

- [info@tvvl.nl](mailto:info@tvvl.nl)
- [www.tvvl.nl](http://www.tvvl.nl)

**Society President**

- W. (Ferry) M.F. de Vries BSc.

**Chief Staff Person**

- J. (Jan) Aufderheijde MSc.

## **Official AASA Representative**

- J. (Jan) Aufderheijde MSc.

## **Number of Members**

- TVVL has approx 1200 personal members (architects; consultants; manufacturers; installers; building owners; facility managers; university & high school teachers) and 500 industrial/commercial supporters.
- Members main fields of interest are: HVAC; Sanitary Systems; Building Automation; Safety & Security; and Electrotechnics in the built environment.
- TVVL offers (post graduate) courses in the above mentioned fields; publishes a peer reviewed technical monthly (TVVL Magazine) and organizes symposia, workshops and excursions.
- TVVL's Technology Council is responsible for defining, executing and publishing (about) new research projects.
- There is an active 'Young TVVL' (< 40y old) department for youngsters.

## **Objectives of Society**

- Knowledge dissemination in the fields of HVAC, Sanitary Systems, Electrotechnics and Building Automation (see above) within the built environment. With specific attention for sustainability and in recognition of the limited resources of fossil fuels on our planet.

## **Publications**

- See TVVL website

## **Conferences**

- See TVVL website

## **Organization**

- TVVL has 8 regional chapters each with their own activities
- TVVL is the Dutch representative in (and co-founder of) REHVA, the European umbrella federation of HVAC organizations in Europe (see: [www.rehva.eu](http://www.rehva.eu)). A major project within REHVA, initiated by TVVL, is the development of REHVA dictionary, a glossary with approx. 13,000 terms in 14 languages (see: [www.rehvadictionary.eu](http://www.rehvadictionary.eu))

- See also the TVVL website

### **International Contacts**

- See above and the TVVL website
- TVVL strongly promotes international relationships between engineers and scientists working in the same field.
